Course Syllabus

Introduction

This comprehensive 10-day course will enhance the way you manage yourself effectively within your own time constraints, how to better organize and prioritize your work/life tasks, as well as the people you manage. These skills will develop a more efficient and motivated individual, enabling increased outputs and productivity in any business area.

Businesses and organizations need to find more productive methods of planning, more appropriate goals and effective means of making decisions. This course focuses on using productive practices allowing for effective and efficient management of work and making changes and continuous improvements in the organization.

This course will feature:

- Logical and intuitive decision making and problem solving techniques

objectives

- Understand and develop skills necessary to set goals and complete work on time
- Use basic planning process tools to plan work strategy
- Utilize a variety of methods to improve decision making and problem solving
- Identify tasks that can be eliminated, prioritized, or delegated
- Analyse situations that hinder their performance and identify techniques to overcome them

Contents

Module 1
