Course Syllabus

Introduction

A unique, action-packed workshop that puts the emphasis on practical application of proven, cutting-edge, methods and tools that really works.

Develop hands-on skills in this critical area through applying tools to real world cases and the opportunities and challenges affecting your own organisation.

At the end of the bootcamp you will be able to apply the tools you need to design, develop and deliver a successful business strategy.

This course will feature:

which can be taken back and applied in the workplace.

- Extensive and constructive feedback throughout the course from the tutor, from fellow delegates and from self-review
- Selection of the vital few critical success factors, key results indicators and key performance indicators to build a scorecard and dashboards
- Discovering new ideas, perspectives and insights

objectives

By the end of this course, participants will be able to:

- Choose the optimal strategy design for your organisation
- Evaluate new strategy tools and predict their effectiveness
- Question existing strategies and distinguish between effective and ineffective approaches
- Explain how to apply a systematic approach to strategy design, development, implementation and evaluation
- Choose and apply the best strategy tools for the chosen design approach
