Course Syllabus

Introduction

This course will help you assess your present situation, in terms of work and personal life – focusing on concepts essential to effective time/task management and work planning. This course will enhance the way you manage yourself effectively within your own time constraints, how to be better organize and prioritise your work/life tasks, as well as the people you manage. These skills will develop a more efficient and motivated individual, enabling increased outputs and productivity in any business area.

By leveraging time and change to your advantage, you will achieve maximizing the amount of work accomplished in the shortest amount of time, yet at the same time effective in what activity is performed and how it is managed.

This course will feature:

- Analysis and understanding change, in all its facets

- Personal development planning

objectives

By the end of this course, participants will be able to:

- Understand why managing time matters to work and health in our changing world
- Identify tasks that can be eliminated, prioritized, or delegated
- Apply techniques for planning, managing priorities, scheduling work, and working proactively
- Analyse situations that hinder their performance and identify techniques to overcome them
- Analyse their strengths and needs and prepare a personal development plan
