Introduction

Every organisation is unique, with its own strategic objectives, capabilities and strategic options – and that is why. For these reasons our approach is focused on enhancing strategic decision making capabilities, recognising the challenges of strategic decision making.

This unique programme is designed to enhance your decision capabilities when confronted with strategic challenges – both in conditions where there is sufficient time to conduct analyses and when there is only time to choose. You will learn to make strategic decisions under such tough conditions.

objectives

- Design more effective decision processes

- Explore the characteristics of processes that enable organizational learning and facilitate the integration
- Identify the right questions, use appropriate frameworks and avoid over analyzing
- Improve business performance by developing a deep understanding of what drives effective and ineffective
- Promote more cooperative decision making in situations where cooperation can lead to better outcomes
- Transform risk into opportunity.
