## Syllabus

---

### Course Syllabus

#### Introduction

This intensive 10-day course offers complete guidance for managing all types of projects that include the complexity of commercial and business relationships. The course explores how to ensure projects deliver outcomes which are client-focused, contractually appropriate and organizationally relevant.

This course covers key aspects of project definition, planning, control and handover to ensure relevant quality within time, budget and resource constraints. It explores in detail what a contract does (and does not) require each party to the contract to do, and the consequences for both parties of any failure. It also tackles team leadership, stakeholder management and project communication.

#### This course will feature:

- Introduction to the world of contracts and project management

## **Objectives**

- Develop project plans focused on delivering sustainable benefits
- Lead project teams in the use of contracts and delivery of projects
- Manage relationships with project stakeholders and contractual partners
