### Course Syllabus

#### Introduction

This course will examine an organization's revenue that is spent on goods and services - everything from raw materials to spares and stocks. Hence, when the goal is to increase earnings by lowering costs, world-class organizations look closely at their purchasing strategies.

Success in purchasing is dependent not only on an awareness of the potential opportunities, but more importantly, and the focus of this course, is the knowledgeable implementation of the methods, processes, and techniques that should be utilized in order to become a leader in obtaining real supply management savings through negotiations and understanding cost reduction

**This course will feature:**
