Course Syllabus

Introduction

This intensive 10-day course is designed to assist contracts and procurement professionals understand and deal with the increasing complexity of commercial and business relationships. All business professionals need to understand how and why contracts allocate risk to the parties to the contract, and the consequences of failure to meet that risk.

Modern companies need procurement improvements to allow organisations to meet their strategic objectives. This course promotes best practice in procurement activities and working on the 'right' issues of compliance, creativity and supply market knowledge. It establishes how to measure purchasing and contract contributions so that these critical functions are recognised as core competencies.

- An understanding of international contracting in the English language.
- Selection and application of contract management & procurement strategies.
- Managing suppliers to obtain best in class results.

Objectives

- Improve their understanding of the role of contracts within a business.
- Develop more confidence in dealing with contracting issues.
- Understand how purchasing & contract strategies can be developed to improve commercial outcomes.
- Learn how to develop high performance purchasing organizations.
- Will show analytics for use to guide procurement and contract strategies.
